Project Healing Waters returned to the Roaring Fork Valley 8-11 May 14, with fishing on 9 and 10 May. The trip served 10 disabled veterans from the VA Hospital in Grand Junction and Ft Carson in Colorado Springs.

The Glenwood Chamber of Commerce helped line up lodging and meals. The Glenwood Suites/Quality Inn & Suites donated rooms and 'The Lost Cajun', 'Chili's' and 'Uncle Pizza' donated evening meals.

The trip would not have been possible without Tom Trowbridge at Roaring Fork Anglers who lined up guides for two days, then helped secure private water at the Crystal Springs Ranch and Giannetti Spring Creeks when Spring runoff made the Roaring Fork too difficult to fish.

All the warriors were reminded of the year-round recreational opportunities available free on the National Forests of Colorado, especially the White River National Forest.

The vets had nothing but great things to say about the trip: "It's like heaven out here", "Fishing with PHW let's me leave the world behind", "Incredibly relaxing."

We are looking forward to continued this partnership and making this an annual event with employees of the White River National Forest volunteering to help.
